

2009 Northeast Sustainable Communities Workshop Selected Evaluation Comments

June 18, 2009 – Newark, NJ

- I am leaving here convince that sustainability is more than a buzzword
- Excellent speakers and panel format with lots of time for questions is great
- Open friendly atmosphere
- Good sessions
- Excellent speakers
- Diverse audience and speakers/topics
- Speakers who spoke about the specifics of a project and the lessons learned were most useful/interesting
- Holistic array of topics related to sustainable BF development.
- The info presented was excellent and informative
- Contacts were good. Good people attended
- Smart people, good presenters
- Knew nothing before I arrived – Lots of info!
- Good general overview of the current state of “sustainable development” in the NE. All-in-all you received an appreciation for how sustainability concepts have developed and are being proactively integrated
- Sustainability is becoming more and more a focus of agency and corporate visions statements, and this workshop helped me understand how sustainability integrates into our local/regional/national business plans/objectives.
- Solid info...helps us up the learning curve. Just plain good time!
